

# REVOLVER<sup>®</sup>

## UNIVERSAL DRILL BIT GUIDE

The Revolver<sup>®</sup> can be used with all orthopedic surgical drills. It protects soft tissue and grips to the bone to promote stability during drilling.

*"With a turn of the chamber, I can switch drill bit guide size with ease. It saves me time and saves the hospital money."*

- Orthopedic Surgeon, Philadelphia, PA

For more information, or to order your Revolver<sup>®</sup> directly, call 307.315.6403 or visit [www.mcginleyorthopedics.com](http://www.mcginleyorthopedics.com).
